

— POLLY POOD → FUDGE&TEARS → DOVE BAR —

Thanks for ordering your “Passyunk LOVEbundle” – Our Ingredients, Your Kitchen.

Here’s to prep your tater tots:

1. Preheat your oven to 180 degrees C and line a baking tray with greaseproof paper.
2. Your tots should arrive chilled ready to separate, but may arrive frozen depending on transport temperature. If frozen, place the bag into warm water for approx. five or more minutes to thaw. Once thawed you should be able to easily separate the tater tots.
3. Evenly spread your tater tots across the baking tray leaving a bit of space between each tot so they cook evenly.
4. Bake for 10 mins and then rotate your tots so the side touch the baking tray surface is now facing up. Bake for another 10 mins until golden brown. If you like your tots extra well done and crispy, you can bake for an additional 5 mins.
5. Remove from oven and serve. Tots will be very hot so be careful eating them.
